Cloisters on the Platte is stunning

Recently a trio of us made the jaunt to the Cloisters on the Platte. It was stunning. A warm thank you to Joe Ricketts. His passion, insight, planning and resources made his dream a reality, much to the blessing of every Christian.

The setting is breathtaking. The building architecture is eye candy. But the crowning jewels are the Stations of the Cross. The theme is the essence of Christian belief across all denominations.

The pilgrimage through the Stations of the Cross is about a mile trek. The experience is heartwarming and awe-inspiring.
